CUSTOM MADE TEXTILES

Many corporations around the world have started to use customized clothing for effective presentation of their brand, either for a promotional event or for their merchandising projects.

We also call this business as Private Labelling Service or Bespoke Manufacturing which is highly profitable and easily marketable to your customers.

As Ipeknur Textile , as directly manufacturer in Turkey, we have been staying at production part of this organisation since 1989.

Beside giving high quality and rapid turnaround service , we also search for new trends, models, fabrics, colors, applications, accessories for our customers to have new ideas for their projects.

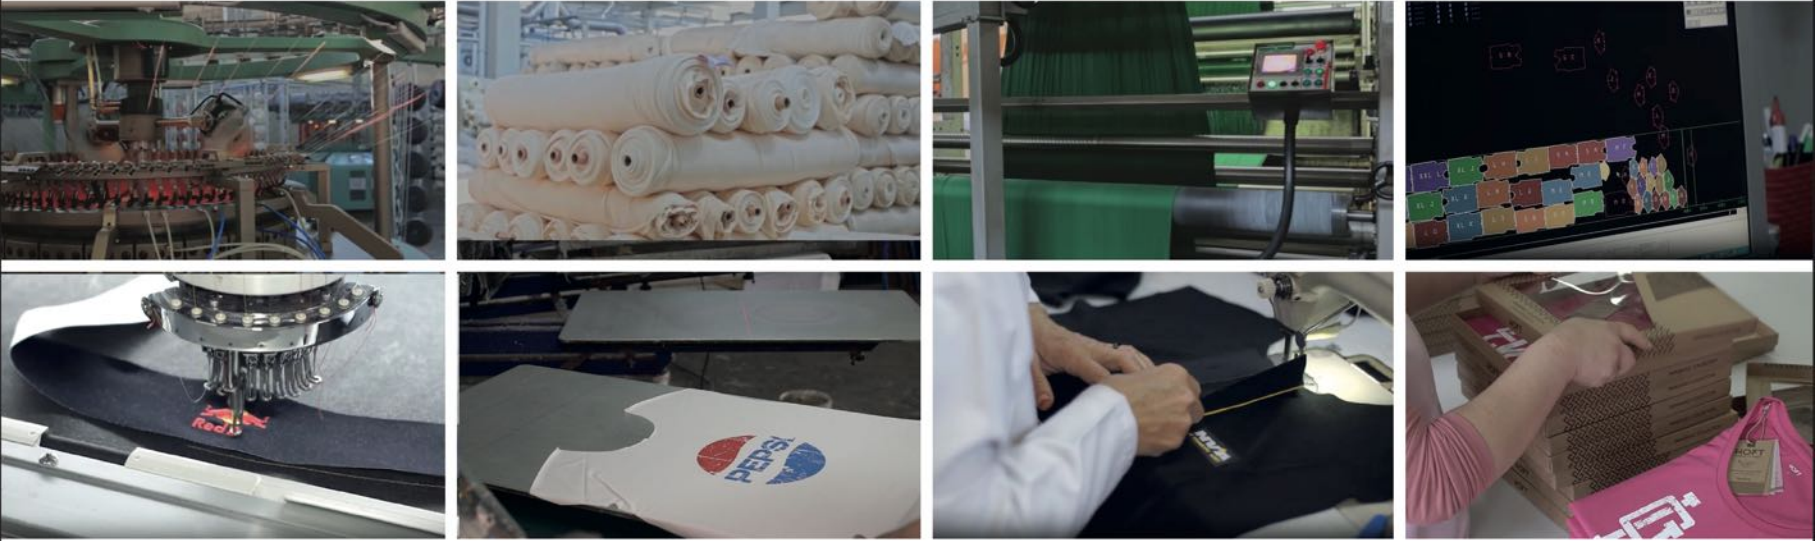

In this catalogue ,you will be able to see some samples from our production which are developed together with our customers.

This catalogue is made for you to see our work, our references and to think about offering 'Unique Brand Wear' to your customers. The products in this catalogue are not for sale.

Here, we tried to group the items according to product types for you to have an idea about what we supply.

We hope to start working with you soon..

Dear Business Partners,

This year, to increase custom made textile projects together, we would like to prepare a neutral catalogue for you to use it during your customer visits.

After removing this page, there isn't any of our logo or contact remaining in this catalogue. But you can remember us from our PSI #46848 member numbers which you can find on the front cover.

TECHNICAL INFORMATION

Capacity

We are able to produce many kind of garments such as t-shirts, polo shirts, rugby shirts, sweat shirts, hoodies, underwears, jackets, shirts, trousers, aprons, baby articles, towels and so on.. Our capacity allows 2000-5000 garments per day depending on complexity of the style.

Quality

Our manufacturing quality is at retail quality level. Our fabrics are very soft to the touch, helping you for final sale. We use reactive dyed and pre-shrunked fabrics and all are tested for dimensional stability and colorfastness. Our prints, embroideries and all labelling details are made with excellent quality.

Flexibility

We are very flexible on production of different styles, this can be a basic underwear and can be a complex jacket. We offer you different fabric qualities with prices for you to choose the most suitable one for your clients. We also offer you your own woven and printed labels, rubber badges, appliqués, different print and embroidery technics on your garments.

Speed

We can offer you a rapid turnaround of garments made to your own specifications, in pantone colours of your specification. Pre-production samples of your order would be finished in 2-3 weeks time after you place the order. And all production would be shipped in approx 3-4 weeks time after your approval of the preproduction samples.

Customer satisfaction

You receive our price quotations of your inquiries in 2 days time max. We also send you weekly reports about your orders' statuses in our factory. This is made, because if there is a problem with production, we can solve it as soon as it is occurred.

Minimums

Depending on style details, our minimum quantities may change. Please ask it with your inquiry.
